

Authenticating Social Media Sources

*Want to integrate your Social Media Feeds into your app?
Follow these step-by-step instructions!*

Step #1: Authenticate within the Organization Dashboard

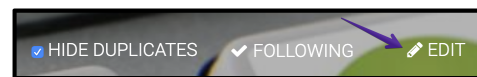

1. From your **[Hamburger Menu]**, go to your Organization Dashboard.
2. On the Dashboard tab, *select* the Social Media Source(s) you would like to authenticate.
3. *Enter* applicable user credentials.

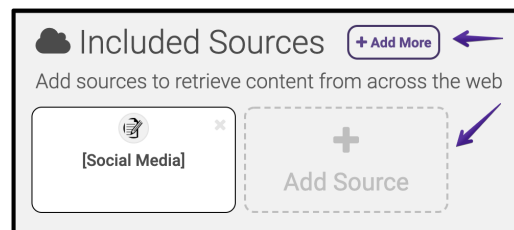

Step #2: Add Sources to a Topic

1. From the **[Hamburger Menu]**, *select* the Topic in which you would like to integrate your Social Media Source.

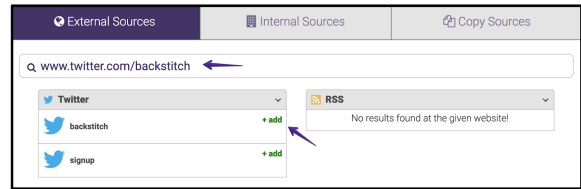

2. *Select* **[Edit]** in the right corner of the banner.

3. Under Included Sources, *select* **[Add More]** or **[Add Source]** - both allow you to add your Social Media Source.

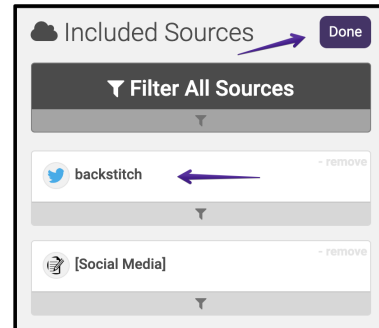

4. Under the default External Sources tab, type your Social Media Profile URL into the Search Bar.

5. Select **[Add]** next to your Social Media Source.

6. Confirm that the Source has been added to the Included Sources and select **[Done]**.

Step #3: Confirm Social Media Feed Addition

1. Select **[Done]** at the bottom of the banner.
2. Refresh your page to see your Social Media Feed!
3. Repeat as needed across different Topics.
