

Utilizing Photo Carousel

Photo Carousel makes the most of each Post by allowing users to scroll through multiple photos!

Step #1: Create a new Post in backstitch Studio.

1. In backstitch Studio, open a new Block Editor Template.
2. Select **Tools** on the left sidebar.
3. Drag & Drop **Photo Carousel** into the Studio Template.

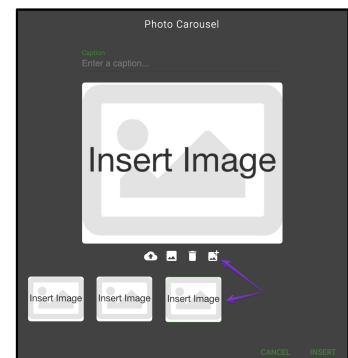

Step #2: Import images to Photo Carousel

1. Select the **[Upload Image]** icon  to upload image from computer.
2. Insert images in the order and orientation desired for display in Post.

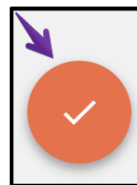

Pro Tip: Insert multiple image windows to organize image order!

3. Once images have been uploaded, select **[Insert]** and add any additional content to your Post.

Step #3: Publish Post!

1. Select **[Preview]** to view and Publish your Post.
2. Select the method in which to Publish your Post.

Pro Tip: Publishing to Email will allow your recipients to open the Post in a separate browser and click through the Photo Carousel!
